

## *I hope this April Newsletter finds everyone healthy and happy!*

Boy has the world changed in just a short couple of weeks. At 5pm March 31, 2020, Gov Ducey implemented the "Stay home, stay healthy, stay connected" policy that promotes physical distancing, while also encouraging social connectedness through at least April, 30, 2020.

We would like to thank all of you for your patience, understanding and cooperation during this difficult time. Our main goal is to keep you all safe and healthy. The news and information is constantly changing and the uncertainty can be a bit scary for us all. It is hard, and I can say personally, I miss everyone's smiles, laughter and chit chat here at the clubhouse

I hope you enjoy the puzzles included in this month's newsletter. We hope to have some additional ways we can socially connect in the next several weeks. Stay healthy!

*Lynette Villani*

## Riddles and Brain Teasers

1. What kind of fish can never swim?
2. What is a Mummy's favorite type of music?
3. What can you catch but not throw?
4. What do you get if you put a radion in the fridge?
5. What is it that no man wants, but no man wants to lose?
6. Weight in my belly, trees on my back. Nails in my ribs, feet I do lack. What am I?
7. Which tree is the most difficult to get along with?
8. What kind of a street does a ghost like the best?
9. What is always coming, but never arrives?
10. Which bow cannot be tied?
11. What has 10 letters and starts with gas?
12. What demands an answer but asks no question?
13. The more you take from me, the bigger I get.
14. What can be right but never wrong?
15. What do people want the least on their hands?
16. I have a red coat and a stone in my throat. What am I?
17. What gets broken without being touched?
18. A fruit on a tree. A tree on a fruit.
19. When is 1500 plus 20 and 1600 minus 40 the same thing?
20. What can you throw but not catch?
21. What goes up and down but does not move?
22. Where do you find an ocean with no water?
23. What word becomes shorter when you add two letters to it?
24. What has hands but cannot clap?
25. What stays where it is when it goes off?
26. What goes up but never comes down?

## BIRTHDAYS

### April

1st - James Dobson & Quentin Robley  
 4th - Gary Smith & Katherine Taylor  
 6th - Rex Bailey  
 7th - Barbara Waldron  
 8th - Duane Edrich  
 9th - Virginia Taylor & Paul Goodwin  
 11th - Joanne Weier  
 14th - Bill Whitehead  
 16th - Terry Knight  
 17th - Hoa Mckenzie & Gerald Orecchio  
 19th - Rita Spano & Charlene Lambert  
 22nd - Carol Riffle  
 23rd - Neil Hedlund  
 27th - Elinore Grennan  
 30th - Nancy Bronson

**Want your birthday on here?  
 Let Lynette know.**

# PUZZLE #1

## ACROSS

- 1) Anklebones
- 6) University in Texas
- 11) "This means \_\_\_!"
- 14) For all to hear
- 15) Truly love
- 16) Anger
- 17) They are see-through
- 19) "... heat, \_\_\_ gloom of night ..."
- 20) "Mode" preceder
- 21) Munched
- 22) Tall Australian bird
- 23) Becoming morning
- 27) Like some humor
- 29) \_\_\_-Wan Kenobi
- 30) Jewish homeland
- 32) Below-the-belt comment
- 33) Animal house
- 34) "Come in!"
- 36) Nosy thing to do?
- 39) Roams
- 41) Auctioneer's hammer
- 43) Voyaging on an ocean
- 44) Fire remnant
- 46) Andrea Bocelli, for one
- 48) Malone on "Cheers"
- 49) Coral strip
- 51) 100-meter event
- 52) Clairvoyance, e.g.
- 53) Breastbone
- 56) Some instrument pluckers
- 58) When doubled, a dance
- 59) Airport schedule abbr.

**ANSWERS ON PAGE 8**

# What you need to know about coronavirus disease 2019 (COVID-19)

## What is coronavirus disease 2019 (COVID-19)?

Coronavirus disease 2019 (COVID-19) is a respiratory illness that can spread from person to person. The virus that causes COVID-19 is a novel coronavirus that was first identified during an investigation into an outbreak in Wuhan, China.

## Can people in the U.S. get COVID-19?

Yes. COVID-19 is spreading from person to person in parts of the United States. Risk of infection with COVID-19 is higher for people who are close contacts of someone known to have COVID-19, for example healthcare workers, or household members. Other people at higher risk for infection are those who live in or have recently been in an area with ongoing spread of COVID-19. Learn more about places with ongoing spread at <https://www.cdc.gov/coronavirus/2019-ncov/about/transmission.html#geographic>.

## Have there been cases of COVID-19 in the U.S.?

Yes. The first case of COVID-19 in the United States was reported on January 21, 2020. The current count of cases of COVID-19 in the United States is available on CDC's webpage at <https://www.cdc.gov/coronavirus/2019-ncov/cases-in-us.html>.

## How does COVID-19 spread?

The virus that causes COVID-19 probably emerged from an animal source, but is now spreading from person to person. The virus is thought to spread mainly between people who are in close contact with one another (within about 6 feet) through respiratory droplets produced when an infected person coughs or sneezes. It also may be possible that a person can get COVID-19 by touching a surface or object that has the virus on it and then touching their own mouth, nose, or possibly their eyes, but this is not thought to be the main way the virus spreads. Learn what is known about the spread of newly emerged coronaviruses at <https://www.cdc.gov/coronavirus/2019-ncov/about/transmission.html>.

## What are the symptoms of COVID-19?

Patients with COVID-19 have had mild to severe respiratory illness with symptoms of

- fever
- cough
- shortness of breath

## What are severe complications from this virus?

Some patients have pneumonia in both lungs, multi-organ failure and in some cases death.

## How can I help protect myself?

People can help protect themselves from respiratory illness with everyday preventive actions.

- Avoid close contact with people who are sick.
- Avoid touching your eyes, nose, and mouth with unwashed hands.
- Wash your hands often with soap and water for at least 20 seconds. Use an alcohol-based hand sanitizer that contains at least 60% alcohol if soap and water are not available.

## If you are sick, to keep from spreading respiratory illness to others, you should

- Stay home when you are sick.
- Cover your cough or sneeze with a tissue, then throw the tissue in the trash.
- Clean and disinfect frequently touched objects and surfaces.

## What should I do if I recently traveled from an area with ongoing spread of COVID-19?

If you have traveled from an affected area, there may be restrictions on your movements for up to 2 weeks. If you develop symptoms during that period (fever, cough, trouble breathing), seek medical advice. Call the office of your health care provider before you go, and tell them about your travel and your symptoms. They will give you instructions on how to get care without exposing other people to your illness. While sick, avoid contact with people, don't go out and delay any travel to reduce the possibility of spreading illness to others.

## Is there a vaccine?

There is currently no vaccine to protect against COVID-19. The best way to prevent infection is to take everyday preventive actions, like avoiding close contact with people who are sick and washing your hands often.

## Is there a treatment?

There is no specific antiviral treatment for COVID-19. People with COVID-19 can seek medical care to help relieve symptoms.

# Steps to help prevent the spread of COVID-19 if you are sick

**FOLLOW THE STEPS BELOW:** If you are sick with COVID-19 or think you might have COVID-19, follow the steps below to help protect other people in your home and community.

## Stay home except to get medical care

- **Stay home:** Most people with COVID-19 have mild illness and are able to recover at home without medical care. Do not leave your home, except to get medical care. Do not visit public areas.
- **Stay in touch with your doctor.** Call before you get medical care. Be sure to get care if you have trouble breathing, or have any other emergency warning signs, or if you think it is an emergency.
- **Avoid public transportation:** Avoid using public transportation, ride-sharing, or taxis.

## Separate yourself from other people in your home, this is known as home isolation

- **Stay away from others:** As much as possible, stay away from others. You should stay in a specific “sick room” if possible, and away from other people in your home. Use a separate bathroom, if available.
  - See COVID-19 and Animals if you have questions about pets. <https://www.cdc.gov/coronavirus/2019-ncov/faq.html#COVID19animals>

## Call ahead before visiting your doctor

- **Call ahead:** Many medical visits for routine care are being postponed or done by phone or telemedicine.
- If you have a medical appointment that cannot be postponed, call your doctor’s office, and tell them you have or may have COVID-19. This will help the office protect themselves and other patients.

## If you are sick wear a facemask in the following situations, if available.

- **If you are sick:** You should wear a facemask, if available, when you are around other people (including before you enter a healthcare provider’s office).
- **If you are caring for others:** If the person who is sick is not able to wear a facemask (for example, because it causes trouble breathing), then as their caregiver, you should wear a facemask when in the same room with them. Visitors, other than caregivers, are not recommended.

**Note:** During a public health emergency, facemasks may be reserved for healthcare workers. You may need to improvise a facemask using a scarf or bandana.

## Cover your coughs and sneezes

- **Cover:** Cover your mouth and nose with a tissue when you cough or sneeze.
- **Dispose:** Throw used tissues in a lined trash can.
- **Wash hands:** Immediately wash your hands with soap and water for at least 20 seconds. If soap and water are not available, clean your hands with an alcohol-based hand sanitizer that contains at least 60% alcohol.

## Clean your hands often

- **Wash hands:** Wash your hands often with soap and water for at least 20 seconds. This is especially important after blowing your nose, coughing, or sneezing; going to the bathroom; and before eating or preparing food.
- **Hand sanitizer:** If soap and water are not available, use an alcohol-based hand sanitizer with at least 60% alcohol, covering all surfaces of your hands and rubbing them together until they feel dry.
- **Soap and water:** Soap and water are the best option, especially if hands are visibly dirty.
- **Avoid touching:** Avoid touching your eyes, nose, and mouth with unwashed hands.

## Avoid sharing personal household items

- **Do not share:** Do not share dishes, drinking glasses, cups, eating utensils, towels, or bedding with other people in your home.
- **Wash thoroughly after use:** After using these items, wash them thoroughly with soap and water or put in the dishwasher.
